

ADAM PATT

ICANN INSURE, LLC

Since 2008, Adam Patt has served in leadership roles as President for both iCann Insure, LLC and Maxam Assurance Agency. With over 20 years of experience, Adam's industry knowledge and attention to detail has earned his agencies multiple insurance awards for Best-Practices and Best-In-Class. His strong background in risk-management, safety programs and IT solutions supports their continued success.

Adam's experience with Fortune 500 companies makes him an asset to the Cannabis Industry for his knowledge and implementation of regulatory statutes, OSHA Compliance as well as maintaining NFPA codes and standards. He keeps himself current on legislative processes through diligent self-study of pertinent initiatives. Adam is a member of Independent Insurance Agents of Illinois, Trusted Choice Network and a sponsoring member of NCIA.

Adam is personally invested in advancing cannabis accessibility after watching his own father suffer with Lung Cancer. His frustration over lack of information and options from traditional medicine fuels his passion for helping individuals find natural health choices. Adam's vision is for simplified access to life-changing botanicals for those who need them. He believes people should not have to risk prosecution or undue expense in order to procure such items and desires to be an advocate for change.

Adam serves his greater community by donating to The TLC Foundation for Body Focused Repetitive Behaviors and sponsoring fundraising events for ARTS Refreshing the Soul. Both foundations endeavor to improve the lives of those they serve and educate others to the challenges their clients face.

As Adam gives to those around him, he also strives to give to himself a balanced life by practicing and teaching kung fu at a local studio, playing music in a band, meditating, and enjoying the company of his dog, Noodle.
